Press Release

Upson improved its momentum in the second quarter, with first half sales growing 6.79% to ₱6.47 billion from ₱6.06 billion in the same period last year. The stronger pace of activity was also reflected in same store sales growth of 9.29% in the second quarter, compared with 3.43% in the first quarter.

Improvements were likewise seen in both gross profit margin and net income margin, supported in part by inventory management decisions on categories to push in response to demand and seasonal trends.

Cash balances remained broadly consistent with levels maintained at year end 2025, providing a steady financial base as Upson enters the second half of the year.
